ABOUT US

The Marine Science Program is the first, and the largest, in the CSU, with more than 500 students...

...And yet, the majority of our upper-division courses feature a maximum of 24 students.

1:24

We offer hands-on field and laboratory research throughout the curriculum, with many chances for independent research, including...

...the largest university-based Research Dive Program in the country, with courses and gear to meet your every need.

APPLYING

We accept transfer applications for both Fall and Spring semesters. For more information visit here:

<https://csumb.edu/admissions/transfer>

IMPACTION CRITERIA

The Marine Science program is impacted, meaning that admission to the program is competitive. Please review the list of courses that every transfer student must complete prior to applying to CSUMB:

<https://csumb.edu/admissions/impaction>

TRANSFER REQUIREMENTS

Before you apply, please make sure that meet the CSUMB's transfer requirements, which can be found here: <https://csumb.edu/admissions/transfer-requirements>

@marine.science.csumb

CSUMB's proximity to the 'living laboratory' of the Monterey Bay is unique within the main campuses of the CSU. Students have direct access a wide variety of marine habitats as well as opportunities to interact with many other marine-focused **institutions** in the region.

Please visit, www.youtube.com/watch?v=8unpTaqh6el for a video depicting what it means to be a marine science student at CSUMB
