

Undergraduate Fellowships in Coastal and Marine Ecosystems Research at California State University, Monterey Bay

The NOAA Center for Coastal and Marine Ecosystems Undergraduate Fellowship provides funding for two years of undergraduate study to rising junior undergraduate students majoring in Science, Technology, Engineering and Mathematics (STEM) fields that directly support NOAA's mission. Examples of these areas include biology, engineering, fisheries science, and oceanography. Participants conduct research with CSUMB faculty and NOAA scientists.

Program Benefits

Two years of stipend support, \$12,000/year.

\$1,000 research scholarship.

Additional travel and research support available.

Participation in a week-long, place-based core competency skills course.

Application Dates:

Opens Sep 1, 2019

Closes Nov 15, 2019

Program Dates:

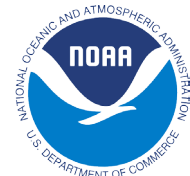

2 year fellowship,
starting Spring 2020
